MOUNTAINS TO SEA: Georgia's topographic diversity is varied from the mountains (see *Georgia Encyclopedia below today*) to the sea. This view is from Darien, on the coast north of Brunswick, as shrimp boats get ready to parade by in the annual Blessing of the Fleet. Note the flatness of the terrain, with tall trees in the distance interrupting the horizon. It's far different from the peaks and valleys of North Georgia.

Issue 11.38 | Tuesday, Aug. 9, 2011

TODAY'S FOCUS

:: [Foundation: Privatize Briscoe Field](#)
