As part of the ongoing implementation of the ACTivate Gwinnett Place initiative, the Gwinnett Place Community Improvement District will host community outreach events to help identify locations for a potential Gwinnett Place area trail to connect McDaniel Farm Park to the larger commercial district and the existing trail network.

The survey is also available through March 25 at www.surveymonkey.com/r/GPconnected.

"We are very interested in what the community thinks regarding possible connectivity with McDaniel Farm Park and the Greater Gwinnett Place area," said Joe Allen, Executive Director of the Gwinnett Place CID.

The first of three outreach events will be 8:30 to 10:30 a.m. March 17 at Intercept at Satellite Place Offices, 3237 Satellite Boulevard, Building 300 in Duluth.
