**Gwinnett Place Connected: Gwinnett Place CID Seeks Initial Public Input on Connectivity of McDaniel Farm Park to the Greater Gwinnett Place Area**

(Gwinnett)—As part of the ongoing implementation of the ACTivate Gwinnett Place initiative, the Gwinnett Place Community Improvement District (CID) will host a series of community outreach events on March 17 and 19 to help identify locations for a potential Gwinnett Place area trail that could connect McDaniel Farm Park to the larger commercial district and the existing trail network. TSW, an award-winning, full-service planning, architecture, and landscape architecture firm, will lead the community engagement process.

Surveys will be conducted both in person and online at:  
<https://www.surveymonkey.com/r/GPconnected>

The online survey is available March 3 to March 25, 2016.

“We are very interested in what the community thinks regarding possible connectivity with McDaniel Farm Park and the Greater Gwinnett Place area,” said Joe Allen, Executive Director of the Gwinnett Place CID. “This feasibility and scoping study is just one part of the CID’s efforts to drive redevelopment as envisioned in the ACTivate Gwinnett Place master plan. If you can’t make it to one of the outreach events, we encourage everyone to participate in the online survey.”

The following events will take place in March:

March 17—Intercept at Satellite Place Offices 8:30 a.m. - 10:30 a.m. with interactive activities and a survey.

March 19—Intercept at McDaniel Farm Park 10:00 a.m. – 2:00 p.m. with interactive activities and a survey.

March 19—Intercept at Gwinnett Place Mall 10:00 a.m. – 1:00 p.m. with interactive activities and a survey.

Unveiled in July 2015, the ACTivate Gwinnett Place initiative charts a path for redevelopment of Gwinnett’s central business district. The plan proposes several bold infrastructure investments including a trail network, enhanced connectivity to McDaniel Farm Park, roadway improvements, pedestrian enhancements along Pleasant Hill Road and Satellite Boulevard and storm water management solutions.
