heart surgery services available within the local health care delivery system."

"As Gwinnett County's traffic congestion continues to increase, the creation of an open heart surgery program at the center of

Philip Wolfe

the county significantly improves the ability of the residents of Gwinnett County to access timely care, thereby reducing heart damage and the likelihood of poor health outcomes."

Gwinnett Medical

Center will now prepare an appeal requesting that the Commissioner of the Department of Community Health reinstate the Department's original approval of the Gwinnett Medical Center Open Heart Surgery program. The Commissioner of the Department of Community Health is expected to make a final administrative decision by July 17, 2009.

Further appeals are possible as the Certificate of Need process allows parties to seek court review within 30 days of the final administrative decision.

"While we hope that we will ultimately secure open heart through the administrative appeal process, GMC is prepared to seek judicial review if necessary," added Wolfe. "If the commissioner reinstates our approval, we would hope that Piedmont and Emory would not further delay our program by seeking judicial review."

Construction to Begin on New Lawrenceville Police Department

Specializing in public safety facility design for over twenty years, the architects and engineers at Precision Planning are preparing to oversee construction of their thirteenth police building design project with the groundbreaking of the new City of Lawrenceville Police Department Headquarters. The design team will work closely with the general contractor, Choate Construction, who won the project with a low bid of \$7,755,000. Situated at the prominent corner of Jackson Street and Scenic Highway 124, the new police

department building will be a new cornerstone development at the east side of Lawrenceville's historic downtown.

Transportation studies bring funding to Gwinnett

The Atlanta Regional Commission (ARC) recently awarded \$85,000 in grants to aid in funding the transportation studies of four Gwinnett County groups. Grants were awarded to the City of Norcross, the Gwinnett Village and Gwinnett Place Community Improvement Districts (CID) and the City of Suwanee.
