GPCID Welcomes Medical Business Service Inc. To Gwinnett Center

MBS Inc. provides patient billing services for hospital-based physicians

(Duluth)—The Gwinnett Place Community Improvement District (CID) welcomes the announced arrival of Medical Business Service Inc. (MBS) to offices in the Gwinnett Place area.

Kaufman Realty Group (KRG) recently signed a lease with MBS to occupy 20,000 square feet at the Gwinnett Center complex – 3505 Koger Boulevard off Pleasant Hill Road.

Florida-based MBS is a leading provider of patient billing services for hospital-based physicians. Establishing offices in Gwinnett Place is expected to produce more than 80 new jobs.

“The decision of MBS to locate to Gwinnett Place is a strong indicator of how well our area supports a wide variety of employers,” said Joe Allen, executive director of the Gwinnett Place CID. “Efforts to attract quality businesses like MBS continue to yield results, and we welcome them to the county’s central business district.”

The MBS announcement comes on news of NCR’s plans to occupy the Satellite Place 700 building off Satellite Boulevard near Gwinnett Place Mall.

On a routine basis, the CID works in conjunction with the Partnership Gwinnett economic development initiative, real estate professionals, chambers of commerce and others to highlight available properties and resources in greater Gwinnett Place.

Kaufman Realty Group is an active member of the CID, and the CID’s staff has worked closely with it to attract interest to its property and other Gwinnett Place locations.
