

Gwinnett Place CID FususCORE Reimbursement Grant Application

Join the Gwinnett Place Community Improvement District's efforts to enhance safety throughout the district. Gwinnett Safe Communities is a new public safety program. By participating, you will enhance emergency preparedness by enabling police, fire and public safety professionals to better assess and rapidly respond to criminal activity and emergency situations.

The Gwinnett County Police Department has initiated the Gwinnett Safe Communities program to improve safety and security across Gwinnett County, allowing property and business owners to **connect the video feeds from their security cameras directly to the police department**. This connection is made possible through a FususCORE device, a video gateway. For more information, please visit GwinnettSafeCommunities.org.

The Gwinnett Place Community Improvement District is providing a reimbursement grant equal to the cost of installation and the first year's subscription fee for one FususCORE lite bundle, which supports up to four camera feeds. Please note that program reimbursement funds are limited. By participating in our FususCORE Reimbursement Grant Program, you can help promote the safety of those visiting and working in Gwinnett Place.

Grant Application

Property Owner/Business: _____

Address: _____

Contact Name: _____

Contact Phone Number: _____

Contact E-Mail: _____

Gwinnett Safe Communities

Increasing Safety.

Respecting Privacy.

Help create a safer Gwinnett by enrolling in our community camera sharing program!

Registering your camera enables Gwinnett Police to get important information faster. The more cameras registered, the faster we can connect the dots to help solve crimes. This will help to create safer communities. Integrating your camera with Gwinnett Safe Communities creates a mutual agreement between you and Gwinnett Police. Your camera will only be accessed for proactive monitoring for criminal activity, during a criminal incident or emergency at or near your location.

Scan the QR code for more information and to register your camera.
